**Bird**
You came across a group of spiders feasting on a group of brine flies. You were successful at catching one of them for your afternoon meal. Take the food bag of the spider that you caught.

**Brine Fly**
You came across an algal bloom and it’s a feeding frenzy! You only have limited time to graze before the current causes the bloom to dissipate. Grab everything that you can to get those needed nutrients! Place the algae that you find in your food bag.

**Bird**
You came across a group of spiders feasting on a group of brine flies. You were successful at catching one of them for your afternoon meal. Take the food bag of the spider that you caught.

**Spiders**
You came across a group of brine flies feeding on an algal bloom. You were very stealthy in your hunt, and as a result you were successful at catching 4 of them for your afternoon meal. Take the food bags of the brine flies that you caught.

**Brine Fly**
You came across a group of brine flies feeding on an algal bloom. You were very stealthy in your hunt, and as a result you were successful at catching 4 of them for your afternoon meal. Take the food bags of the brine flies that you caught.

**Spider**
You came across a group of brine flies feeding on an algal bloom. You were a bit late in joining the hunt, and as a result you caught 2 of them – not bad for a snack. Take the food bags of the brine flies that you caught.

**Brine Fly**
You came across a group of brine flies feeding on an algal bloom. You were a bit late in joining the hunt, and as a result you caught 2 of them – not bad for a snack. Take the food bags of the brine flies that you caught.

**Spider**
You came across a group of brine flies feeding on an algal bloom. You were too busy spinning your web, so you were only able to catch 1 brine fly – you are probably going to be hungry again soon! Take the food bag of the brine fly that you caught.
