Westminster College Four Year Graduation Guarantee

To help you focus on your goals, Westminster College is offering you a Four Year Graduation Guarantee. This Guarantee allows you to complete your degree on time or Westminster College will pay for the remaining course work. Westminster will provide you with the resources you need to graduate in four years. You commit to work toward graduation by completing at least 31 credits each year (including May Term).

I agree to:

- Review, accept, and submit the Four Year Graduation Guarantee and to formally declare a major no later than the end of the second semester of my first year. If I’m majoring in pre-nursing or aviation flight operations, I will declare before my first semester at Westminster.¹
- Meet with my academic advisor at least once every semester to review my academic plan and degree progress.
- Register for classes on the first day I’m able and select courses consistent with my degree plan.
- Notify my advisor immediately if I am unable to register for the classes I need.
- Complete at least 31 credit hours each year, pass my classes, and remain in good academic standing.
- Meet all requirements of my major program, including separate admission to the nursing, education, music, or bachelor of fine arts program. I understand that this includes completing all pre-requisites on time and attending summer if necessary.
- Apply for graduation at the beginning of my senior year.
- Stay on track passing all courses with GPA required and remain in good standing.
- Comply with all administrative, conduct, and academic policies and procedures.

Westminster College agrees to:

- Provide a four-year academic plan for your primary major.
- Provide access to an academic advisor in your major.
- Provide degree audits to show your academic progress and degree requirements.

If I meet all of the obligations of the Four Year Graduation Guarantee and still cannot graduate in four years due to the unavailability of necessary courses for my primary major, Westminster College will allow me to take the course(s) required to complete my degree within the fifth year, at $0 tuition cost to me.

Note that if you are planning two majors, it is possible to graduate in four years but you will need to work with your advisor on your academic plan.

Student Name (Printed): ______________________________________________

Student Signature: _____________________________________________________

Date: __________________ Student’s Westminster College ID# _____________________________

Intended Major: _________________________________
